Svelte Component

Table of Contents

Allows you to quickly navigate the hierarchy of headings for the current page.

```
TYPESCRIPT                                                      Copy

import { TableOfContents, tocCrawler } from '@skeletonlabs/skeleton';
```
