Svelte Component

App Bar

A header element for the top of your page layout. Pairs well with the App Shell.

```typescript
TYPESCRIPT                                              Copy

import { AppBar } from '@skeletonlabs/skeleton';
```

◉ Source   </> Page Source   ⊙ WAI-ARIA

Usage   Props   Slots

👁 </>   🎨

← 📎 📅 ⊙

Headline

App Bars can be generated with a number of different configurations by mixing and matching available slots and props.

Single Row and Title
